REMINDER - FUSION

This memo is to remind screeners of the facts and to try to eliminate as many rumors as possible.

- STAS made a demand to the Canadian Industrial Relations Board to fusion the PL and Screeners union.
- The union objects to that demand.
- On June 26th, 27th and 28th, STAS will make its case to the CIRB, arguing for a fusion and the union will make its case that 2 distinct units are still very viable and represent the will of the members.
- After both sides make their case, the CIRB will decide. No votes this time.
- If the CIRB rejects STAS's demand for fusion → status quo. We never have to hear about the fusion again.
- If the CIRB accepts STAS's demand for a fusion → both unions will have to discuss how best to implement it. The government is NOT going to impose the conditions of a fusion.
- When the fusion case is settled, we will proceed to conciliation in order to continue negotiations with STAS.
