SCHEDULE MODIFICATIONS

Hi everyone,

As you've probably already seen, STAS is modifying a couple of schedules for grand Prix week-end. The modifications are mostly for part time schedules and a few full time schedules with Sunday and Monday off. Those changes are only temporary.

The collective agreement states that STAS can modify schedules (including days off) if they post the modifications 7 days prior, which they did in this case.

e) The Employer shall establish or modify the work schedules in accordance with the provisions contained in the Collective Agreement, and shall post them and send a copy to the Union at the same time. The schedules shall be posted seven (7) calendar days before coming into force.

The modifications were done by reverse seniority among those with the targeted days off. If you believe your schedule has been modified by mistake, please inform a delegate as fast as possible.

René Fortier
Interim Chairperson
