

# **\*\*SUMMER LOOK DAY\*\***

## **This action will take place to underline:**

- That we have been without a work contract for close to 9 months;
- That screeners and coordinators in Montreal are paid less than in any other airports across Canada;
- That Securitas' final offer Montreal was still inferior to all other airports across Quebec;
- That our working conditions are getting worst everyday;
- That the company refuses to address problems day after;
- That we are starting our 9<sup>th</sup> schedule in less than 2 years;
- That the SCC have again this year faced lay-offs;
- And many others issues making our work days harder every day....
